Safe Locks | Elostar Master

99 Users

Audit Trail

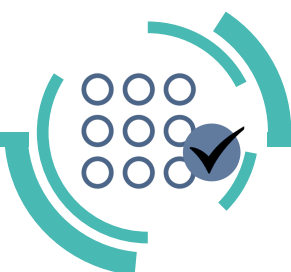

Time delay / Time Lock

The Elostar Master digital safe lock has extensive functionality, individual user management and flexibility all of which are applicable in areas of use with medium security requirements. This modular, network capable electronic safe lock can be operated as a stand-alone unit or connected to a network of safe locks of even different types.

It can be used wherever organisational flexibility, company specific setup and increased security level are requirements. It is particularly ideal for safes operating at organisations with a large network of branches or stores, e.g. banks, the post office, retail and restaurant chains.
