## Safe Locks | Elostar Pro

 9 Users    Audit Trail    Time delay / Time Lock

The Insys EloStar Pro electronic safe lock system is fully automated and can be installed to a vast array of safe locks and secure storage cabinets. Individual time programs allow to create weekly programs with opening windows and special blocking days. The EloStar family features fully automatic electronic locks in a sturdy zinc die-cast housing. The systems are certified according to VdS/ECBS 2/B and not only meet the requirements of private and business users, but also those of cash-in-transit companies.
