

Security Doors | LPCB Approved SR Doors

Our Security Rated Doors are ideal for a vast range of Commercial Security requirements, specifically for medium to high-risk environments, offering a secure solution for the protection of valued assets, prevention of unauthorised access and with the ability to upgrade to also provide fire protection, our SR Doors are really a no-brainer for securing your premises.

Security Rated Doors are crucial for a number of business settings with a variety of sizes available in addition to single or double door options. Our SR Doors are LPCB approved having fulfilled LPS 1175 standards, and are available in security ratings SR2 to SR6, providing assurance that access to your premises, or restricted areas within your premises, by unauthorised personnel is prevented.

We provide made-to-measure solutions to tailor your Security Rated Door to meet your exact requirements, making sure it fulfils all necessary specifications and provides the optimal solution for your individual needs.

With the ability to include both Exit and Entry hardware to your Security Rated Door, such as push to exit bars for ease of access in emergency situations, SR Doors can offer the full package. We're also able to offer locking mechanisms which link to access control systems or alarms to further control authorised access.

Available in powder-coated mild steel, with a variety of RAL colour options for powder coating, these Security Doors are installed by our in-house team of expert engineers, ensuring our customers receive a highly professional, efficient and effective installation service for their SR Doors. We not only install our SR Rated Doors ourselves, but we also carry our expert site surveys to determine the exact requirements of your premises, ensuring that you achieve a solution that directly reflects your security needs.

In instances where there may be a requirement for your Security Door to remain in keeping its surroundings, such as for Listed Buildings, our Bespoke Security Doors provide the perfect solution to providing the appropriate security measures, whilst maintaining the needs of the premises.
