Safe Locks | Auditgard

8 Users

Audit Trail

Time delay

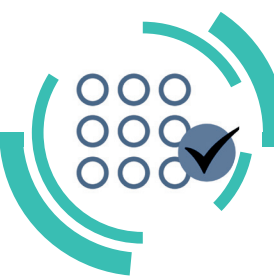

The La Gard Auditgard Digital Safe Lock is a multi-user electronic combination lock that is ideally suited for both domestic and commercial environments.

With suitability for safe Grades 0 to 5, the AuditGard Safe Lock offers a solution for a vast array of business security needs, allowing for a safe locking solution that meets both your preferences and your security requirements.

The eKey function permits dual-token opening of the lock using a combination and the eKey.

Different input units - all in metal design - are available with a soft keypad or a dome membrane keypad.
