

Safe Locks | Supra

 30 Users  Audit Trail  Time delay

The La Gard Supra Digital Safe Lock is a multi-user electronic combination lock that can be programmed with one Master Code, one Manager code and up to 30 Users. The Supra has a 479 event audit with time and date stamp.

As a further development of the AuditGard lock, the Supra Series offers beside the base functions and an increased number of users. Customised versions are also available, having been created by adding new functions via keypad or the programming software.
