 Audit Trail

 Time delay / Time Lock

The Tecnosicurezza TechMaster is a multi-user and multi-lock security system that provides complete and customisable access control for safes and vaults. With an Audit trail of 6000 events, advanced user features and superior keypad timelock control, the TechMaster digital safe lock is without doubt a premium lock system suited for a variety of commercial security requirements.

Where the TechMaster safe lock excels, is the inclusion of IP remote management, allowing installation of a lock system onto a company network, with windows based software for lock monitoring and administration.
